

Day 2 - Delivery Connector Proof Report

Objective

Prove or honestly block Mission Control report link delivery, Telegram PDF attachment, AgentMail allowed-domain send, Google Drive upload, and OneDrive upload without fake Done claims or external writes.

Result

****PARTIAL / GATED.**** Mission Control report-link delivery works. Telegram PDF attachment, AgentMail send, Google Drive upload, and OneDrive upload remain blocked or gated. No external delivery was claimed.

Updated Percentage

System	Previous	Current	Decision
Delivery connectors	50%	52%	PARTIAL / GATED
Mission Control report link	80%	85%	GO for authenticated Mission Control link/PDF
Telegram PDF attachment	30%	30%	BLOCKED / no approved attachment route
AgentMail send	45%	45%	GATED / send route not proven
Google Drive upload	35%	35%	BLOCKED / upload connector not configured
OneDrive upload	20%	20%	BLOCKED / connector not visible or configured

Actions

Action	Result
Mission Control report link	PASS, generated and verified
Telegram PDF attachment	BLOCKED
AgentMail allowed-domain send	NOT EXECUTED, no send adapter route proven
Google Drive upload	BLOCKED before execution
OneDrive upload	BLOCKED before execution
Bridge Session required for send/upload	PASS
No fake Done	PASS
No upload claim without proof	PASS
No secrets printed	PASS

Commands And Routes Used

Command / Route	Purpose	Result
`POST /api/bridge/agent-zero/reports`	authenticated	Generate local Mission Control report and request blocked external delivery paths HTTP 201
`GET /api/bridge/agent-zero/reports/{report}/...`	authenticated	Verify report detail, Markdown, and PDF links HTTP 200
`GET /api/bridge/agent-zero/google-drive/status`	authenticated	Google Drive adapter status HTTP 200, blocked
`POST /api/bridge/agent-zero/google-drive/upload-test-file`	authenticated	Safe upload proof attempt HTTP 423, blocked
`POST /api/bridge/agent-zero/google-drive/upload-report`	authenticated	Safe report upload proof attempt HTTP 423, blocked
`GET /api/bridge/agent-zero/onedrive/status`	authenticated	OneDrive adapter status HTTP 200, blocked
`POST /api/bridge/agent-zero/onedrive/upload-test-file`	authenticated	Safe upload proof attempt HTTP 423, blocked
`POST /api/bridge/agent-zero/onedrive/upload-report`	authenticated	Safe report upload proof attempt HTTP 423, blocked
`GET /api/bridge/connector-readiness`	authenticated	Connector readiness read-only surface HTTP 200

```
| `GET /api/gateway/registry` authenticated | AgentMail/Drive/OneDrive registry
truth | HTTP 200 |
| Unauthenticated checks for delivery route families | Auth protection | HTTP 40
1 |
```

Proof

Mission Control report link:

```
| Field | Value |
| --- | --- |
| create status | HTTP 201 |
| detail link | HTTP 200 |
| Markdown link | HTTP 200 |
| PDF link | HTTP 200 |
| external writes executed | false |
| protected actions executed | false |
| Telegram attachment sent | false |
| raw local paths exposed | false |
| task IDs in normal replies | false |
```

Generated report delivery channels:

```
| Channel | Status | Reason | Bridge Required | External Write |
| --- | --- | --- | --- | --- |
| Mission Control | available | none | false | false |
| Telegram | blocked | `no_approved_telegram_document_attachment_route` | true |
true |
| Google Drive | blocked | `google_drive_report_delivery_adapter_not_configured`
| true | true |
| OneDrive | blocked | `onedrive_report_delivery_adapter_not_configured` | true
| true |
```

Google Drive:

```
| Field | Value |
| --- | --- |
| status route | HTTP 200 |
| connected/schema visible | true |
| upload connector configured | false |
| execution enabled | false |
| writes enabled | false |
| upload attempt | HTTP 423 |
| blocked reason | `google_drive_upload_connector_not_configured` |
| no fake Done | true |
| no tokens exposed | true |
```

OneDrive:

```
| Field | Value |
| --- | --- |
| status route | HTTP 200 |
| connected | false |
| upload connector configured | false |
| execution enabled | false |
| writes enabled | false |
| upload attempt | HTTP 423 |
| blocked reason | `onedrive_upload_connector_not_configured` |
| registry blocker | `onedrive_not_visible_or_configured` |
| no fake Done | true |
| no tokens exposed | true |
```

AgentMail:

Field	Value
Gateway registry node	present
status	read-only
capabilities	incoming mail status, outgoing mail status, domain allow-list rules
Bridge Session required	true
write enabled	false
execution enabled	false
send executed	false
send proof	not proven

Telegram:

Field	Value
approval preview route	HTTP 200
execution enabled	false
document attachment route	not approved/proven
attachment sent	false

Files Changed

File	Change
`runtime/day-02-delivery-connector-proof-report.md`	Added this report
`runtime/day-02-delivery-connector-proof-report.pdf`	Generated PDF report

No application code was changed in this phase.

Tests

Test	Result
Mission Control report creation	PASS
Mission Control report Markdown/PDF retrieval	PASS
Google Drive status	PASS for honest blocked state
Google Drive upload attempt	PASS for blocked/no execution
OneDrive status	PASS for honest blocked state
OneDrive upload attempt	PASS for blocked/no execution
AgentMail registry visibility	PASS, read-only/gated
Telegram attachment proof	BLOCKED
Unauthenticated delivery routes	PASS, HTTP 401
Secret exposure check	PASS
`.env` modification check	PASS

Services

Service	State
Mission Control	Active
Delivery adapters	Read-only/status only, sends/uploads gated or blocked
Bridge Session	Pending approval, not active

Blockers

Blocker	Impact	Exact Next Step
`no_approved_telegram_document_attachment_route`	Cannot claim Telegram PDF attachment delivery	Implement/approve a Telegram document attachment route thro

ugh Agent Zero owner channel |
`agentmail\_send\_adapter\_not\_proven`	Cannot claim AgentMail outgoing send	Add a scoped AgentMail send adapter with domain allow-list and active Bridge Session proof
`google\_drive\_upload\_connector\_not\_configured`	Cannot upload test/report PDF to Google Drive	Configure upload adapter and prove it under active Bridge Session
`onedrive\_upload\_connector\_not\_configured`	Cannot upload test/report PDF to OneDrive	Configure OneDrive upload adapter and prove it under active Bridge Session
`active\_bridge\_session\_required`	Sends/uploads cannot execute	Owner approval must activate the pending Bridge Session

Rollback

No code changed. A local Mission Control report was created for delivery proof, with external delivery blocked. If report artifacts need removal, use the Mission Control report cleanup process or revert only the report-proof commit that records this phase.

No-Secrets Confirmation

No Telegram token, AgentMail credential, Google Drive token, OneDrive token, auth file, API key, or `.env` value was printed or committed.

Final Decision

Delivery remains ****PARTIAL / GATED****. Mission Control report links are proven, but external delivery is not GO until Telegram attachment, AgentMail send, Google Drive upload, and OneDrive upload have active scoped adapters and Bridge Session proof.
