Objective

Execute Phase 017 of the Mission Control / Gateway completion campaign and report production truth without fake 100% claims.

Result

****PARTIAL.****

Proof Summary

Paperclip health OK; dependency remediation not expanded because no production install change was made.

Commands / Routes Used

- systemd status/restart checks using the controlled systemd respawn fallback where restart was required.
- Temporary admin session route smoke was created and destroyed inside the smoke script; no token was printed.
- Unauthenticated route smoke confirmed protected APIs return 401.
- Browser visual smoke used a temporary admin session and captured a safe Agent Hub screenshot.
- Test suites were run in Mission Control and ClaudeClaw/OpenClaw+.

Mini-Agent OS	76%	PARTIAL / GATED	Schemas, policy tests, and gauntlets pass; activation requires Bridge Session.
Build-Wiki / Farmer	72%	PARTIAL / GATED	Timer active; literal legacy service opencloud-docs-farmer.service inactive until scoped Run Now approval.
Brain Systems	70%	PARTIAL	Read/status contracts present; writes require Bridge Session; no memory dump performed.
