

Phase 9 — Delivery Connector Proof

Generated: 2026-05-07T22:50:04Z

Result

****Status:**** PARTIAL GO / LOCAL MISSION CONTROL DELIVERY WORKS

Mission Control report creation and internal report links work. External delivery channels remain gated or blocked with exact reasons. No fake delivery claim was made.

Mission Control Report Link Proof

```
| Check | Result |
| --- | --- |
| Route | `POST /api/bridge/agent-zero/reports` |
| HTTP status | 201 |
| Report created | yes |
| Report ID | `azr_mow2vb7h_1bb1bccd256c` |
| PDF route | `/api/bridge/agent-zero/reports/azr_mow2vb7h_1bb1bccd256c/pdf` |
| Markdown route | `/api/bridge/agent-zero/reports/azr_mow2vb7h_1bb1bccd256c/markdown` |
| Normal owner-safe reply | `I created the report in Mission Control, but Telegram PDF attachment is blocked because no approved document attachment route is configured.` |
| Report list route | HTTP 200 / count 3 |
| Unauthenticated report list | HTTP 401 |
```

Delivery Channel Status

```
| Channel | Status | Proof / Blocker |
| --- | --- | --- |
| Mission Control report link | GO | Available without external write. |
| Telegram PDF attachment | blocked | `no_approved_telegram_document_attachment_route` |
| AgentMail allowed-domain send | gated / not executed | Gateway node is read-only, write/execution disabled, requires Bridge Session; no live send route was invoked. |
| Google Drive upload | blocked | `google_drive_upload_connector_not_configured` |
| OneDrive upload | blocked | `onedrive_upload_connector_not_configured` |
```

Google Drive Proof

```
| Check | Result |
| --- | --- |
| `GET /api/bridge/agent-zero/google-drive/status` | HTTP 200 |
| Status | `blocked` |
```

```
| Configured | no |
| Execution enabled | no |
| Writes enabled | no |
| Blocker | `google_drive_upload_connector_not_configured` |
```

OneDrive Proof

```
| Check | Result |
| --- | --- |
| `GET /api/bridge/agent-zero/onedrive/status` | HTTP 200 |
| Status | `blocked` |
| Configured | no |
| Execution enabled | no |
| Writes enabled | no |
| Blocker | `onedrive_upload_connector_not_configured` |
```

AgentMail Proof

```
| Check | Result |
| --- | --- |
| Gateway AgentMail node | visible |
| Read enabled | yes |
| Write enabled | no |
| Execution enabled | no |
| Requires Bridge Session | yes |
| Live send attempted | no |
| Reason no send was attempted | No active Bridge Session and no send adapter proof in scope. |
```

Security / Governance Confirmation

- No Telegram document was sent.
- No email was sent.
- No Google Drive upload occurred.
- No OneDrive upload occurred.
- No external write occurred.
- No Zapier, HeyGen, SMB, Farmer, or broad connector action occurred.
- No secrets, tokens, auth files, or `.env` values were printed.
- No `.env` file was modified.
- No raw server paths were returned in owner-facing output.
- The owner-facing response explicitly says Telegram is blocked rather than saying Done.

Updated Percentages

System	Previous	Current	Notes
Mission Control report delivery	70%	85%	Local report and attachment routes work.
Telegram PDF attachment	20%	20%	Blocked by missing approved document attachment route.
AgentMail delivery	35%	35%	Read-only visible; send requires Bridge Session and adapter proof.
Google Drive delivery	30%	30%	Upload connector not configured.
OneDrive delivery	30%	30%	Upload connector not configured.
Overall delivery	45%	52%	Local Mission Control delivery is real; external delivery remains blocked/gated.

Required Action

1. Implement or approve Telegram document attachment route if Telegram PDF attachment is required.
2. Open a scoped Bridge Session before AgentMail send/upload actions.
3. Configure and prove Google Drive upload connector before claiming Drive delivery.
4. Configure and prove OneDrive upload connector before claiming OneDrive delivery.
5. Keep Mission Control report link as the default safe delivery path until external connectors pass.

Phase 9 Decision

Delivery is ****PARTIAL GO****: Mission Control report link works; all external channels are blocked or gated honestly.
