

day-52-mcp-zapier-heygen-final-closeout

Day 52 - MCP / Zapier / HeyGen Final Closeout

Date: 2026-05-10

Status: DEVELOPER-SIDE CLOSED; external provider execution remains gated/blocked

Branch: to-knowledge-mc

Lane

Final closeout for MCP registry/discovery, Zapier read-only registry, Zapier no-write guard, HeyGen schema readiness, HeyGen exact-scope approval path, and safe tool error rendering.

What Changed

- Added one consolidated closeout smoke:
 - scripts/check-mcp-zapier-heygen-final-closeout.mjs
- Generated final Day 52 runtime proof:
 - runtime/day-52-mcp-zapier-heygen-final-closeout-smoke.json

No Mission Control route behavior was broadened in this lane.

Existing Implementation Verified

- MCP summary and server registry remain authenticated and read-only.
- MCP server/tool discovery never invokes MCP tools.
- Zapier status/tools/search routes remain read-only.
- Zapier write paths stay locked and do not create approval rows in the no-write guard lane.
- HeyGen schema readiness validates only schema/payload state and never generates video.
- HeyGen exact-scope proof requires 'heygen.generate' and stays blocked when Zapier MCP schema is not visible.
- Generic tool-action approval preview maps HeyGen through exact scope 'heygen.generate' without creating an approval row or executing generation.
- Day 51 tool error classifier is available for owner-facing blocker rendering.

Runtime Proof

Runtime bind:

- 127.0.0.1:3337

Runtime PID:

- 18435

Consolidated smoke result:

- ok: true
- checked: 11
- failures: 0

Routes checked:

- GET /api/mcp/status unauthenticated
- GET /api/mcp/status authenticated
- GET /api/mcp/servers authenticated
- GET /api/bridge/zapier/status authenticated
- GET /api/bridge/zapier/tools authenticated
- GET /api/bridge/zapier/tools/search?q=heygen authenticated
- POST /api/zapier/request-write-approval authenticated
- POST /api/zapier/test-read authenticated
- GET /api/bridge/heygen/schema-readiness authenticated
- POST /api/bridge/heygen/exact-scope-proof authenticated
- POST /api/bridge/tool-action-approval authenticated dry-run preview

Proof artifact:

- runtime/day-52-mcp-zapier-heygen-final-closeout-smoke.json
- runtime/day-52-mcp-status-consistency-smoke.json
- runtime/day-52-zapier-registry-contracts-smoke.json
- runtime/day-52-zapier-no-write-guard-smoke.json
- runtime/day-52-heygen-schema-readiness-smoke.json
- runtime/day-52-heygen-exact-scope-proof-smoke.json

- runtime/day-52-route-rendering-smoke.json

Current Truth

MCP:

- canonical_status: SERVICE_DOWN
- blocker: claude MCP discovery is unavailable in the Mission Control runtime
- execution_enabled: false
- writes_enabled: false
- no_tool_invocation: true

Zapier:

- canonical_status: BLOCKED
- blocker: Zapier MCP server is not present in the Claude MCP configuration
- execution_enabled: false
- writes_enabled: false
- no_zapier_writes: true

HeyGen:

- canonical_status: BLOCKED
- blocker: Zapier MCP server is not present in the Claude MCP configuration
- schema_available: false
- accepted_for_generation: false
- execution_enabled: false
- writes_enabled: false
- no_heygen_generation: true
- no_zapier_writes: true

Tool action approval preview:

- required_scope: heygen.generate
- canonical_status: OWNER_GATED
- approval_request_created: false
- accepted_for_execution: false
- execution_enabled: false
- writes_enabled: false
- no_heygen_generation: true
- no_zapier_writes: true

Tests And Checks

- Focused Day 52 tests:
 - pnpm exec vitest run src/lib/mcp-server-registry.test.ts src/lib/mcp-server-tool-schemas.test.ts src/lib/zapier-tool-bridge.test.ts src/lib/zapier-write-guard.test.ts src/lib/heygen-schema-readiness.test.ts src/app/api/bridge/heygen/schema-readiness/route.test.ts src/app/api/bridge/heygen/exact-scope-proof/route.test.ts src/app/api/bridge/tool-action-approval/route.test.ts src/lib/tool-error-classifier.test.ts --pool=forks --no-file-parallelism --reporter verbose
 - Result: 9 files / 39 tests passed
- MCP consistency smoke: passed
- Zapier registry contracts: passed
- Zapier no-write guard: passed
- HeyGen schema readiness smoke: passed
- HeyGen exact-scope proof smoke: passed
- Consolidated Day 52 closeout smoke: passed
- git diff --check: passed
- pnpm run typecheck: passed
- pnpm run build: passed
- pnpm test: passed, 179 files / 1402 tests
- Protected-file invariant scan: passed
- .env diff check: clean
- /login smoke: 200
- Mission Control route rendering smoke: passed, 46 routes and 8 designer pages checked

Files Changed

- scripts/check-mcp-zapier-heygen-final-closeout.mjs
- runtime/day-52-mcp-zapier-heygen-final-closeout.md
- runtime/day-52-mcp-zapier-heygen-final-closeout.pdf

- runtime/day-52-mcp-zapier-heygen-final-closeout-smoke.json
- runtime/day-52-mcp-status-consistency-smoke.json
- runtime/day-52-zapier-registry-contracts-smoke.json
- runtime/day-52-zapier-no-write-guard-smoke.json
- runtime/day-52-heygen-schema-readiness-smoke.json
- runtime/day-52-heygen-exact-scope-proof-smoke.json
- runtime/day-52-route-rendering-smoke.json

Blocker Classification

- Developer-side Day 52 blocker: NONE
- MCP runtime blocker: SERVICE_DOWN
- Zapier live execution blocker: BLOCKED
- HeyGen live generation blocker: BLOCKED

Reason:

The backend routes, guards, schemas, exact-scope approval preview, tests, and proof harness are in place. Live Zapier/HeyGen execution is intentionally unavailable until Zapier MCP is configured and Bridge-approved exact execution is separately authorized.

Deploy / Restart

No Mission Control app source changed in this lane.

Restart requirement:

- Not required for this proof-script/report workstream.

Rollback

After commit:

- git revert <day52_mcp_zapier_heygen_closeout_commit_sha>

Safety Confirmation

- No .env changes.
- No secrets printed.
- No auth weakening.
- No public local exposure added.
- No MCP tool invocation.
- No Zapier writes.
- No HeyGen generation.
- No external writes executed.
- No SMB/Fork 2.
- No fake live status.
- No fake Done.

Next Day

Day 53 starts next:

- Telegram PDF delivery closure.
