

Phase 4 — Agent Zero to Hermes Collaboration Report

Generated: 2026-05-07T23:13:55Z

Result

Status: PARTIAL / CONTRACT HANDOFF ONLY

The Agent Zero -> Hermes handoff route returned hermes_called:true from the Mission Control collaboration contract, but Phase 3 still blocks the independent Hermes live adapter. This is not full live Hermes proof.

Route Proof

Route	Auth	HTTP	Key result
---	---	---	---
`POST /api/bridge/agent-zero/hermes-handoff` yes 200 ok=True, status=completed, mode=agent_zero_hermes_collaboration_protocol, hermes_called=True, execution_enabled=False, writes_enabled=False			
`POST /api/bridge/hermes/test-chat` yes 503 ok=False, status=503, mode=hermes_read_only_test_chat, hermes_called=False, execution_enabled=False, writes_enabled=False, blocker=hermes_safe_live_chat_adapter_not_configured			
`POST /api/bridge/agent-zero/hermes-handoff` no 401 error=Unauthorized			

Handoff Summary

Field	Value
---	---
`ok`	`True`
`status`	`completed`
`mode`	`agent_zero_hermes_collaboration_protocol`
`hermes_called`	`True`
`execution_enabled`	`False`
`writes_enabled`	`False`
`hermes_response_source`	`mission_control_hermes_contract`

Planning-Only Output

Planning-only response was returned or route contract summary was available; full text omitted from owner-facing report to avoid leaking raw identifiers.

Guardrails Confirmed

- No workflow execution occurred.
- No file write was performed.
- No email send, upload, Zapier write, HeyGen generation, SMB/Fork 2, or farmer execution occurred.
- No raw task IDs were exposed in the owner-facing report.
- Unauthenticated handoff route is protected.
- Agent Zero remains commander; Hermes remains lieutenant / skill-workflow builder.
- OpenClaw+ remains the runtime / skills / agents / mini-agent execution layer.

Phase 4 Decision

Phase 4 is PARTIAL: the collaboration contract path works and is audited/planning-only, but true live Agent Zero -> Hermes collaboration remains blocked until Phase 3 returns hermes_called:true from the safe Hermes live adapter.
