

Day 02 MAIN-3 – Agent Zero ↔ Hermes Collaboration

Objective

Prove Agent Zero can delegate planning-only work to Hermes, with no execution and no writes.

Result

PASS (planning-only contract path proven).

Actions Executed

1. Called the collaboration handoff route with a workflow-plan prompt.
2. Verified handoff acceptance and planning payload.
3. Verified execution/write safety flags remained disabled.

Commands / Routes Used

- `POST /api/bridge/agent-zero/hermes-handoff`
 - payload: `task\_type=workflow\_plan`, planning prompt, `agent\_chain=["agent\_zero"]`

Proof

- HTTP status: `200`.
- Response fields confirmed:
 - `ok: true`
 - `accepted\_for\_handoff: true`
 - `hermes\_contract\_plan\_prepared: true`
 - `execution\_enabled: false`
 - `writes\_enabled: false`
 - `hermes\_response\_source: mission\_control\_hermes\_contract`
- Handoff reference produced (`owner\_visible\_reference`) and route audited by protocol contract.

Files Changed

- None.

Tests

- Collaboration route smoke: PASS.

Blockers

- None for planning-only collaboration.

Rollback

- No code change in this phase.

No-Secrets Confirmation

- No secret values exposed.
- No local raw paths exposed in owner-facing output.

Updated Percentage

- Agent Zero ↔ Hermes collaboration track: improved to live planning handoff proven.

Exact Next Step

Run the same handoff flow through owner-facing mission prompts once owner browser session is available, preserving no-execution mode.
