

Phase 8 — Paperclip Codex and Claude Auth Separation Report

Generated: 2026-05-07T23:18:28Z

Result

Status: BLOCKED / PAPERCLIP SESSION REQUIRED

Paperclip cannot run Codex/Claude smokes until its owner login/session bridge is configured. Codex and Claude are still reported as separate auth surfaces; no credential mixing occurred.

Auth Separation Signals

Check	Result
---	---
Codex CLI available	`False`
Codex auth marker present	`True`
Claude CLI available	`False`
Claude Code OAuth/subscription auth marker present	`True`
`ANTHROPIC_API_KEY` present in checked runtime scopes	`False`
Anthropic API billing enabled by this phase	`false`
Codex auth reused for Claude	`false`
Token/auth-file contents printed	`false`

Paperclip Route Proof

Route	Auth	HTTP	Key result
---	---	---	---
`GET /api/bridge/paperclip/status`	yes	200	ok=True, mode=paperclip_status_read_only, configured=True, blocker=paperclip_auth_required_or_not_configured, execution_enabled=False, writes_enabled=False
`POST /api/bridge/paperclip/test-chat`	yes	503	ok=False, mode=paperclip_read_only_test_task, blocker=paperclip_safe_test_task_adapter_not_configured, execution_enabled=False, writes_enabled=False
`POST /api/bridge/paperclip/test-chat`	no	401	error=Unauthorized

Safe Smoke Decision

No Paperclip Codex/Claude smoke was run because Paperclip owner login/session bridge is not configured. Direct CLI smokes were not substituted for Paperclip proof.

Guardrails Confirmed

- No token values were printed.
- No auth file contents were printed.
- No .env file was modified.
- Anthropic API billing was not enabled.
- Codex/ChatGPT and Claude/Anthropic remain separate surfaces.
- No external writes or tool execution occurred.
- Paperclip remains Workforce Control Plane before OpenClaw+.

Exact Next Step

Complete Paperclip owner login/session bridge, then register separate Codex and Claude adapters using protected secret references. If Claude Code OAuth is required, complete it through Claude Code subscription login; do not enable Anthropic API key billing unless explicitly approved.
