

Phase 2 — Owner Browser Visual Proof

Generated: 2026-05-08T00:53:15Z

Result

****Status:**** BLOCKED

Exact blocker: `owner\_authenticated\_browser\_session\_required`.

Production Mission Control has been restarted, but this worker does not have a usable owner-authenticated browser session and the in-app browser control runtime is not available in this tool set. I did not read or copy browser cookies, auth files, tokens, or session secrets.

Required Visual Checks Not Yet Proven

UI check	Result
Owner can open Mission Control	blocked
Owner can open Gateway	blocked
Owner can open Agent Hub / Control Center	blocked
Owner can open SpaceAgent panel	blocked
Playwright MCP appears green / connected local-only	blocked pending owner visual proof
Firecrawl appears red / blocked	blocked pending owner visual proof
YouTube Research appears yellow / limited	blocked pending owner visual proof
Paperclip appears partial/degraded, not fake-live	blocked pending owner visual proof
Agent Zero appears as commander	blocked pending owner visual proof
Hermes appears as lieutenant/gated	blocked pending owner visual proof

Route Protection Smoke

Route	Auth	HTTP	Result
/gateway/agent-hub	no	307	html_or_redirect
/gateway/space-agent	no	307	html_or_redirect
/api/gateway/agent-hub/status	no	401	Unauthorized
/api/gateway/space-agent/browser/status	no	401	Unauthorized

Guardrails Confirmed

- No owner cookies, auth files, API keys, or browser profile data were read or printed.
- No fake screenshot or fake visual proof was created.
- No auth policy was weakened.
- No `.env` file was modified.
- No external write, SMB/Fork 2, Zapier, HeyGen, or farmer execution occurred.

Phase 2 Decision

Phase 2 remains **BLOCKED** until an owner-authenticated browser session is available for visual proof.
