

Day 8 Phase 077 - Zapier Read-Only / Write-Block Proof

Generated: 2026-05-08 00:04 ET

Objective

Confirm Zapier schema/inventory visibility while writes stay blocked.

Proof

	Check		Result		Decision	
	---		---		---	
	Zapier status		200, tools_total 297		G0 read-only inventory	
	MCP reachable		false for live MCP HTTP auth		PARTIAL	
	Writes enabled		false		PASS	
	Zapier write		not executed		PASS	

Blocker

Live Zapier MCP auth is not attached for tool invocation; cached/read-only inventory is visible. Writes require Bridge Session and exact runner wiring.
