Day 08 NEXT-2 â Paperclip Service Recovery

Objective

Move Paperclip from blocked to service-health proof and re-check read-only bridge routes.

Result

BLOCKED (service not running in sandbox/runtime context).

Actions Executed

1. Probed Paperclip bridge status and read-only routes.
2. Verified local-only service expectations.
3. Confirmed no public exposure changes.
4. Captured exact blockers for status, companies, agents, and issues endpoints.

Commands / Routes / Proof

- Evidence: 'runtime/day-08-next-2-paperclip-proof.json'
- Route results:
 - 'GET /api/bridge/paperclip/status' -> '200', 'health=degraded', blocker 'paperclip_sandbox_service_not_running'
 - 'GET /api/bridge/paperclip/companies' -> '503', blocker 'paperclip_sandbox_service_not_running'
 - 'GET /api/bridge/paperclip/agents' -> '503', blocker 'paperclip_sandbox_service_not_running'
 - 'GET /api/bridge/paperclip/issues' -> '503', blocker 'paperclip_sandbox_service_not_running'

Exact Blocker

- 'paperclip_sandbox_service_not_running'

Owner Action Package

1. Start the approved local/Tailnet Paperclip runtime.
2. Keep Paperclip non-public.
3. Complete owner login/session in Paperclip UI.
4. Notify Codex; Codex will immediately re-run status + companies + agents + issues proof.

Files Changed

- 'runtime/day-08-next-2-paperclip-service-recovery.md'
- 'runtime/day-08-next-2-paperclip-service-recovery.pdf'
- 'runtime/day-08-next-2-paperclip-proof.json'

Tests / Services / Commits

- Tests: focused route probes only.
- Services: Mission Control remained local-only; no new listener exposure added.
- Commits: pending Day 08 batch commit.

Rollback

- Report-only rollback: 'git revert <day08_report_commit_sha>'

No-Secrets Confirmation

- No secrets printed.
- No auth files printed.
- No '.env' changes.

Updated Percentage

- Paperclip remains PARTIAL/BLOCKED until service runtime and owner session are proven.

Exact Next Step

Continue Telegram/Drive/AgentMail/YouTube lanes and retry Paperclip immediately after owner runtime/session availability.
