Day 08 NEXT-3 â Telegram PDF Final Gating Proof

Objective

Move Telegram from implemented route surface to exact GO/GATED/BLOCKED truth without fake send claims.

Result

GATED/BLOCKED (route exists; live send blocked by approval/session and connector config).

Actions Executed

1. Checked Telegram delivery status route.
2. Generated a fresh Mission Control report artifact with PDF link.
3. Attempted Telegram upload-report route.
4. Attempted Bridge execute path for report attachment adapter.
5. Verified no token leakage, no raw path exposure, no fake attachment claim.

Commands / Routes / Proof

- Evidence: 'runtime/day-08-next-3-telegram-proof.json'
- Route results:
 - 'GET /api/bridge/agent-zero/telegram/status' -> '200', status 'blocked', blocker 'telegram_report_delivery_adapter_not_configured'
 - 'POST /api/bridge/agent-zero/reports' -> '201' (report + PDF link created)
 - 'POST /api/bridge/agent-zero/telegram/upload-report' -> '423', blocker 'owner_approval_pending'
 - 'POST /api/bridge/agent-zero/execute' ('mission_control.report.attach') -> '423', blocker 'active_bridge_session_required'

Blockers

- 'telegram_report_delivery_adapter_not_configured'
- 'owner_approval_pending'
- 'active_bridge_session_required'

Files Changed

- 'runtime/day-08-next-3-telegram-pdf-final-gating-proof.md'
- 'runtime/day-08-next-3-telegram-pdf-final-gating-proof.pdf'
- 'runtime/day-08-next-3-telegram-proof.json'

Tests / Services / Commits

- Tests: focused adapter route smoke only.
- Services: Mission Control runtime remained local-only.
- Commits: pending Day 08 batch commit.

Rollback

- Report-only rollback: 'git revert <day08_report_commit_sha>'

No-Secrets Confirmation

- No bot token printed.
- No raw local path exposed.
- No auth files printed.
- No '.env' changes.

Updated Percentage

- Telegram lane improved in implementation truth/gating proof.
- Telegram is not GO until a real attachment send succeeds under approved scoped Bridge session.

Exact Next Step

After owner approval opens active scoped Bridge session, execute one Telegram attachment send and verify delivery/audit live.
