

day-08-next-6-youtube-transcript-escalation

Day 08 NEXT-6 â YouTube Transcript Escalation

Objective

Prove YouTube metadata/transcript capability live, or return exact runtime limitation.

Result

LIMITED (metadata path proven; transcript still unavailable in runtime).

Actions Executed

1. Queried YouTube connector status route.
2. Ran YouTube research route against a public video ('dQw4w9WgXcQ').
3. Verified packet structure and metadata payload.
4. Checked transcript availability, claims, and timestamps.
5. Confirmed no full video download and no bypass behavior.

Commands / Routes / Proof

- Evidence: 'runtime/day-08-next-6-youtube-proof.json'
- Route results:
 - 'GET /api/gateway/space-agent/youtube/status' -> '200', status 'limited', blocker 'youtube_t
ranscript_connector_not_proven'
 - 'POST /api/gateway/space-agent/youtube/research' -> '200', packet status 'limited'
- Live metadata proof:
 - title: available
 - channel: available
 - publish date: unavailable in packet for this run
 - transcript availability: missing/unavailable
 - transcript-backed claims: none
 - timestamps: none
- Runtime blocker returned by packet:
 - 'youtube_transcript_unavailable'

Exact Blockers

- 'youtube_transcript_connector_not_proven'
- 'youtube_transcript_unavailable'

Files Changed

- 'runtime/day-08-next-6-youtube-transcript-escalation.md'
- 'runtime/day-08-next-6-youtube-transcript-escalation.pdf'
- 'runtime/day-08-next-6-youtube-proof.json'

Tests / Services / Commits

- Tests: focused connector status + live research route probes.
- Services: Mission Control runtime local-only.
- Commits: pending Day 08 batch commit.

Rollback

- Report-only rollback: 'git revert <day08_report_commit_sha>'

No-Secrets Confirmation

- No secrets printed.
- No auth files printed.
- No '.env' changes.

Updated Percentage

- YouTube lane increases for live metadata proof.
- Transcript GO remains blocked until transcript retrieval works in runtime.

Exact Next Step

Keep YouTube status as LIMITED and continue connector/runtime dependency work for transcript support without bypassing provider restrictions.
