

Gateway v3 Breadcrumb and Exit Controls

Objective

Ensure owners always have clear exits from Gateway and Agent Hub without relying on browser back navigation.

Actions

1. Added explicit top navigation controls on Gateway surfaces:
 - Mission Control Home
 - Dashboard
 - Gateway Overview
 - Agent Hub
2. Added clickable breadcrumb across key pages:
 - Mission Control / Gateway / current section
3. Added equivalent controls on Agent Hub and Paperclip drill-down views.
4. Added equivalent controls on Gateway status and SpaceAgent pages for consistency.

Files Changed

- 'src/components/gateway/GatewayControlShell.tsx'
- 'src/components/gateway-agent-hub/AgentHubControlCenter.tsx'
- 'src/app/gateway/status/page.tsx'
- 'src/app/gateway/space-agent/page.tsx'

Commands / Routes

- '/gateway'
- '/gateway/agent-hub'
- '/gateway/agent-hub/paperclip'
- '/gateway/status'
- '/gateway/space-agent'

Proof

- Exit controls are rendered above the fold.
- Breadcrumb segments for Mission Control and Gateway are clickable.
- Agent Hub is explicitly labeled as current page state when active.

Blockers

- Owner confirmation pending on production UI session.

Tests

- 'pnpm run typecheck' PASS
- 'pnpm run build' PASS
- 'pnpm test' PASS

Services

- No runtime restart performed in this phase.

Commits

- Pending at report creation time.

Rollback

- Planned after commit: 'git revert <ui_fix_commit_sha>'

No-Secrets Confirmation

- No secrets printed.
- No '.env' changes.

Updated Percentages

- Navigation/exit control lane improved from partial-defective to partial-functional.

Exact Next Step

- Run production smoke and route verification for Gateway/Agent Hub navigation surfaces.
