

Gateway v3 Owner UI Final Decision

Decision

'PARTIAL GO'

Why

Owner has confirmed authenticated visibility of '/gateway/agent-hub', but has not yet re-confirmed the post-fix build for navigation and scroll behavior.

GO Criteria (still pending owner confirmation)

1. '/gateway' visible after login.
2. '/gateway/agent-hub' visible after login.
3. Scroll works top-to-bottom and back.
4. Visible exits to Mission Control and Gateway.
5. Gateway tabs are visible.
6. Agent Hub cards are visible.
7. No fake buttons.
8. No raw paths.
9. No secrets.

Implemented in This UI Fix Batch

1. Added persistent top-level exit controls in Gateway shell and Agent Hub.
2. Added clickable breadcrumbs.
3. Removed trapped-page behavior by switching route roots to 'h-full overflow-y-auto'.
4. Preserved alias compatibility behavior for '/agent-network' and '/agents'.
5. Kept Paperclip before OpenClaw+ in operating-chain presentation.

Validation Summary

- 'git diff --check' PASS
- 'pnpm run typecheck' PASS
- 'pnpm run build' PASS
- 'pnpm test' PASS ('138' files / '1250' tests)
- 'check-button-contract-routes' PASS
- 'check-protected-file-invariants' PASS

Blockers

- 'owner_visual_proof_partial_navigation_layout_defect' (pending owner re-test completion)
- 'authenticated_local_smoke_blocked_by_mission_control_api_key_not_seeded' (for full authenticated script-level route sweep in this runner context)

Services

- No restart executed in this UI-only phase.

Commits

- Pending at report creation time.

Rollback

- Planned after commit: 'git revert <ui_fix_commit_sha>'

No-Secrets Confirmation

- No secrets printed.
- No auth files printed.
- No '.env' changes.

Exact Next Step

- Owner executes 'gateway-v3-owner-retest-checklist' and confirms pass/fail.
- If all checks pass, promote UI track to 'GO'.
