Day 05 Phase 3 â Owner Gateway FULL v3 Visual Proof

Objective

Prove owner-visible Gateway FULL v3 and Agent Hub control center in an owner-authenticated browser session after rollout.

Result

BLOCKED.

Blocker

- 'owner_authenticated_browser_session_required'

What Was Verified Without Owner Session

1. Rolled-out Gateway and Agent Hub routes are live and auth-gated.
2. Unauthenticated access behavior is correct (redirect to '/login').
3. Gateway FULL v3 route tree exists in runtime.

Required Owner-Session Checks Pending

- Gateway tab rail:
 - Overview
 - Routes
 - Registry
 - Policies / Bridge
 - Health
 - Dispatcher
 - Token Governor
 - Agent Hub
- Agent cards:
 - Agent Zero
 - Hermes
 - Pi
 - SpaceAgent
 - Paperclip
 - OpenClaw+
- Ordering and truth checks:
 - Paperclip before OpenClaw+
 - Firecrawl blocked
 - YouTube limited unless transcript proof passes
 - delivery states honest
 - no fake buttons
 - no secrets/raw paths
 - no OpenCloud architecture label (except literal 'opencloud-docs-farmer.service')

Owner Action Package

1. Sign into Mission Control with owner account.
2. Open Gateway, then Agent Hub.
3. Capture screenshot(s) of Gateway tabs and Agent Hub cards.
4. Return confirmation so Codex can complete Phase 3 verification checklist.

Files Changed

- 'runtime/day-05-phase-3-owner-gateway-v3-visual-proof.md'
- 'runtime/day-05-phase-3-owner-gateway-v3-visual-proof.pdf'

No-Secrets Confirmation

- No tokens printed.
- No auth files printed.
- No '.env' changes.

Exact Next Step

Continue with non-owner-dependent phases while waiting for owner-authenticated session proof.
