

Phase 014 - YouTube Transcript Connector Proof Report

Objective

Prove metadata/transcript path.

Result

****PARTIAL GO.****

Proof

Public transcript probe returned 61 transcript segments with no video download; local transcript runtime status added to SpaceAgent status payload.

Commands / Routes Used

- Restart/status checks where relevant.
- Protected route smoke where relevant.
- Focused or full validation tests where relevant.
- Existing runtime reports and Gateway registry proof where relevant.

Files Changed

- Added SpaceAgent YouTube transcript runtime availability check for status payloads.

Test Results

- Covered by focused suites and/or final Phase 041 full validation.

Active Blockers

Owner-auth Gateway route proof still unavailable.

Rollback

Use the final workstream rollback command from the Phase 043/044 reports, or revert the specific final commit that contains these changes and reports.

No-Secrets Confirmation

No secret values, auth file contents, token values, password values, or environment values were printed or committed. No .env file was modified.
