

Phase 045 - Owner Morning Handoff Report

Morning Result

****PARTIAL GO at 89%, not 100%.**** Mission Control is live, Gateway/Agent Hub routes are protected, Pi is included as shadow dispatcher, Agent Zero remains commander, OpenClaw+ validates cleanly, Playwright MCP is local-only GO, and YouTube transcript runtime is available.

What Is Now Live

- Mission Control public login: <https://mc.knowledge-vs-ai.com/login>
- Agent Hub path after login: /gateway/agent-hub
- Mission Control service active with fresh restart.
- Pi shadow dispatcher in Gateway/Agent Hub.
- Paperclip health endpoint OK, but owner login proof still pending.
- Playwright MCP local-only read-only service.
- Build-Wiki / Farmer timer active under OpenClaw+.
- Runtime/UI hardening commit: e11d095.

What Blocks 100%

Blocker	Systems affected	Required next action
owner_authenticated_browser_session_required	UI proof, authenticated route smoke, owner visual proof	Owner/admin browser session or approved test auth channel
hermes_safe_live_chat_adapter_not_configured	Hermes, Agent Zero-Hermes live collaboration	Build a real no-tool/no-write Hermes chat adapter
firecrawl_credential_required	Firecrawl, SpaceAgent Firecrawl branch	Add approved Firecrawl credential source, then read-only smoke
paperclip_owner_session_required	Paperclip login/dashboard/roster/task queue	Owner completes/bridges local Paperclip session
active_bridge_session_required	Delivery writes, Build-Wiki Run Now, protected actions, mini-agent activation	Open scoped Bridge Session for exact action
telegram_attachment_route_not_proven	Telegram PDF delivery	Configure/prove approved owner document attachment route
drive_connector_session_required	Google Drive / OneDrive delivery	Configure connector and scoped Bridge Session
standalone_pi_runtime_session_not_proven	Pi full GO	Install/prove standalone Pi runtime if desired

Owner Action Needed

- Open or provide a safe owner-authenticated Mission Control browser session for visual proof.
- Complete or approve Paperclip owner login/session bridge.
- Provide Firecrawl credential through approved secret store if Firecrawl should move to GO.
- Approve a scoped Bridge Session for delivery or Build-Wiki / Farmer Run Now proof.

Delivery Status

Mission Control report files are ready in the repo. Telegram/Drive/OneDrive/AgentMail remain gated or blocked until connector/session proof passes.

No-Secrets Confirmation

No secrets were printed or committed. No .env changes were made.
