

day-06-phase-1-day05-production-verification

Day 06 Phase 1 â Day 05 Production Verification

Objective

Confirm Day 05 shipped state remains stable before new implementation work.

Result

PASS.

Actions Executed

1. Verified required commits are present on production branch tip lineage:
 - 'ec9c891'
 - 'b209cb1'
2. Confirmed runtime listener status.
3. Confirmed Gateway FULL v3 routes remain protected and served.
4. Confirmed designer static Gateway endpoint is served/protected.
5. Checked runtime bind interface for local-only scope on Mission Control runtime.
6. Checked '.env' diff status.
7. Checked runtime logs for secret-shaped value leakage.

Commands and Route Proof

- Commit lineage checks:
 - 'git merge-base --is-ancestor ec9c891 origin/to-knowledge-mc' -> '0'
 - 'git merge-base --is-ancestor b209cb1 origin/to-knowledge-mc' -> '0'
 - 'origin/to-knowledge-mc' HEAD: 'f6ed3db'
- Runtime active:
 - 'lsof -nP -iTCP:3337 -sTCP:LISTEN' -> node listening on '127.0.0.1:3337'
- Login route:
 - 'GET /login' -> '200'
- Protected route checks (all expected auth protection):
 - '/gateway' -> '307 /login'
 - '/gateway/routes' -> '307 /login'
 - '/gateway/registry' -> '307 /login'
 - '/gateway/policies' -> '307 /login'
 - '/gateway/health' -> '307 /login'
 - '/gateway/dispatcher' -> '307 /login'
 - '/gateway/token-governor' -> '307 /login'
 - '/gateway/agent-hub' -> '307 /login'
 - '/designer-mission-control/design/gateway/index.html' -> '307 /login'

No New Exposure Check

- Mission Control runtime remains local-only ('127.0.0.1:3337').
- No new public bind was introduced for Mission Control in this phase.

.env / Secret Hygiene

- '.env' diff check: clean (no staged/unstaged '.env*' changes).
- Log scan:
 - no token/API key values printed,
 - no private key material,
 - no secret-shaped values observed.

Files Changed

- 'runtime/day-06-phase-1-day05-production-verification.md'
- 'runtime/day-06-phase-1-day05-production-verification.pdf'

Tests

- Not rerun in this phase (Day 05 validation already passed typecheck/build/tests).
- This phase is production-state verification only.

Services

- Mission Control runtime at '127.0.0.1:3337': active.

Blockers

- None for Phase 1.

Commits

- No source commit in this phase yet (reporting phase).

Rollback

- Not applicable (no source mutation in this phase).

No-Secrets Confirmation

- Confirmed.

Updated Percentage

- Overall remains low 90s PARTIAL GO (no 100% claim).

Exact Next Step

Proceed to Day 06 Phase 2 owner-authenticated browser proof retry; if session unavailable, publish exact owner action package and continue to Phase 3.
