

Phase 7 — Paperclip Service and Owner Login Report

Generated: 2026-05-07T23:17:38Z

Result

Status: PARTIAL / DEGRADED

Paperclip health is reachable, but owner login/session bridge and session-backed company/agent/task views are not fully proven. Blocker: paperclip_auth_required_or_not_configured.

Service / Exposure Proof

```
| Check | Result |
| --- | --- |
| Paperclip health HTTP | `200` |
| health `status` | `ok` |
| health `deploymentMode` | `authenticated` |
| health `bootstrapStatus` | `ready` |
| health `bootstrapInviteActive` | `False` |
| Tailnet/local binding present | `True` |
| Public `0.0.0.0:3100` binding present | `False` |
| Public Cloudflare exposure configured by this phase | `false` |
| Writes/task creation run | `false` |
```

Mission Control Paperclip Bridge Proof

```
| Route | Auth | HTTP | Key result |
| --- | --- | ---: | --- |
| `GET /api/bridge/paperclip/status` | yes | 200 | ok=True, mode=paperclip_status_read_only, configured=True, blocker=paperclip_auth_required_or_not_configured, execution_enabled=False, writes_enabled=False |
| `GET /api/bridge/paperclip/companies` | yes | 503 | ok=False, mode=paperclip_companies_read_only, blocker=paperclip_auth_required_or_not_configured, execution_enabled=False, writes_enabled=False |
| `GET /api/bridge/paperclip/agents` | yes | 503 | ok=False, mode=paperclip_agents_read_only, blocker=paperclip_auth_required_or_not_configured, execution_enabled=False, writes_enabled=False |
| `GET /api/bridge/paperclip/issues` | yes | 503 | ok=False, mode=paperclip_issues_read_only, blocker=paperclip_auth_required_or_not_configured, execution_enabled=False, writes_enabled=False |
| `GET /api/bridge/paperclip/status` | no | 401 | error=Unauthorized |
```

Owner Login / UI Proof

```
| Required proof | Result |
```

```
| --- | --- |  
| `/api/health` works | `True` |  
| Owner login proven | `False` |  
| Company dashboard proven | `False` |  
| Agent roster proven | `False` |  
| Task queue proven | `False` |
```

Guardrails Confirmed

- No Paperclip public exposure was created.
- No Paperclip task creation/write was run.
- No secrets or auth files were printed.
- No .env file was modified.
- No external writes, uploads, Zapier writes, HeyGen generation, SMB/Fork 2, or farmer execution occurred.
- Paperclip remains Workforce Control Plane before OpenClaw+; it does not replace Agent Zero or OpenClaw+.

Exact Next Step

Complete the Paperclip owner login/session bridge or provide an authenticated owner session through Paperclip itself. Then rerun company dashboard, agent roster, and task queue read-only views before enabling any task creation path.
