

Phase 19 — Full Validation Report

Generated: 2026-05-07 21:24:51

Result

****PASS** with remaining production blockers outside the test suites.** Mission Control and ClaudeClaw/OpenClaw+ validation commands passed. Services are active. The remaining blockers are live integration/session blockers, not build/test failures.

Mission Control Validation

Command	Result
---	---
`git diff --check`	PASS
`pnpm run typecheck`	PASS
`pnpm run build`	PASS
`pnpm test`	PASS: 133 files, 1,237 tests
Unauthenticated protected route smoke	PASS: required routes returned 401

Protected routes checked unauthenticated:

- `/api/gateway/status`
- `/api/gateway/agent-hub/status`
- `/api/gateway/nodes/pi-mono`
- `/api/gateway/nodes/space-agent`
- `/api/bridge/agent-zero/status`
- `/api/bridge/hermes/status`
- `/api/bridge/playwright-mcp/status`

ClaudeClaw / OpenClaw+ Validation

Command	Result
---	---
`git diff --check`	PASS
`npm run typecheck`	PASS
`npm run build`	PASS
`npm test`	PASS: 61 files, 1,213 passed, 4 skipped
`npm run design-lock:verify`	PASS
`npm run gauntlet`	PASS

Service Status

| Service | Status | Notes |

| --- | --- | --- |

| Mission Control | active | Restarted through service-manager fallback in Phase 1. |

| ClaudeClaw / OpenClaw+ | active | Runtime service active; validation suite passed. |

| Hermes gateway | active | Live adapter still blocked; service itself is up. |

| Build-Wiki / Farmer timer | active | Legacy timer unit active. |

| Build-Wiki / Farmer service | inactive | Last service result was success; Run Now remains Bridge Session-gated. |

| Agent Zero container | running | Container is up. |

Security Checks

- Mission Control `.env` diff: clean.
- ClaudeClaw/OpenClaw+ `.env` diff: clean.
- Staged files before report generation: 0.
- No secrets printed.
- No auth files printed.
- No `.env` changes.
- No external writes.
- No SMB/Fork 2.
- No Zapier writes.
- No HeyGen generation.
- No external farmers.

Scan Notes

- Mission Control source still contains internal server/API path constants. A broader API response redaction audit remains required before any 100% claim.
- The only non-test `fake Done` text match is a Gateway documentation limitation phrase, not an action button.
- Mission Control parked artifacts remain: two untracked public files classified in Phase 18.
- ClaudeClaw/OpenClaw+ parked dirty tree remains classified in Phase 18; no cleanup was mixed into validation.

Remaining Blockers

- `owner\_authenticated\_browser\_session\_required`
- `hermes\_safe\_live\_chat\_adapter\_not\_configured`
- `firecrawl\_credential\_required`
- `paperclip\_owner\_session\_required`

- `active\_bridge\_session\_required`
- `delivery\_connectors\_gated\_or\_missing`
- `broad\_api\_response\_redaction\_audit\_required`
- `claudeclaw\_dirty\_tree\_cleanup\_requires\_owner\_retention\_policy`

Next Step

Proceed to Phase 20: final production GO/PARTIAL GO truth report.
