

Gateway UI Closeout 3 â Route Smoke

Date: 2026-05-08

Status: PASS (unauthenticated protection), PARTIAL (authenticated visual proof pending owner session)

Scope

Checked routes:

- '/gateway'
- '/gateway/agent-hub'
- '/gateway/agent-hub/paperclip'
- '/gateway/dispatcher'
- '/gateway/token-governor'
- '/gateway/bridge-session'
- '/agent-network'
- '/agents'

Unauthenticated Smoke Result

Base URL:

- 'https://tkmc.knowledge-vs-ai.com'

All checked routes returned:

- '307' redirect to '/login'

This matches expected protected-route behavior.

Authenticated Behavior

- Authenticated route rendering of FULL v3 mounted pages requires owner-authenticated browser session.
- This report does not claim authenticated GO.

Safety Confirmation

- No raw path exposure in route responses.
- No secret output.
- No fake route success claims.
